Show and Tell -- Turn-A-Thon

At the February meeting: We had a well-attended Show And Tell. Each participant received a free raffle ticket. After the show and tell, Dennis Fuge presented "How to say I love you from the Lathe". He demonstrated how to create a heart shaped ring holder. The technique can be used to make bowls or other heart shaped objects.

The meeting, which was held in the Mountainside Chapel in Mountainside, was well attended. Some of us had a little trouble finding it, but all finally made it. Over 50% attendance was achieved. The next meeting, March 27th at 7:30, is at our usual home at the Trinity Reformed Church on Greenbrook Road in North Plainfield.

Wood of the Month

Name:

American Beech (*Fagus grandifolia*)

Type :

Hardwood

Other Names:

Also known as red beech, white beech, stone beech, and winter beech.

Sources:

Grows in Canada and United States.

Appearance:

Straight or sometimes interlocked grain with a fine, even texture. Dark to light reddish brown heartwood and very thin, nearly white sapwood.

Physical Props:

Hard, heavy, strong, stiff and shock resistant. Poor dimensional stability and decay resistance.

Working Props:

Machines well but can be difficult to work by hand. Tends to split - pre-drilling recommended for screws and nails. Finishes and steam-bends well.

Uses:

Does not impart taste or odor to food: ideal for food containers, baskets, utensils, and bread/butcher boards. Also used for chairs, handles, flooring, turned articles, clothes pins, workbench tops, tool handles, novelties, and interior furniture.

Some extraordinary work was displayed this month. Congratulations to everyone who displayed their work.

Dennis presented his "How to Say I Love You from the Lathe" demo. He showed some of the items that could be made for a loved one. And how to make a Heart shaped Ring Holder. He demonstrated a unique way to make a heart shaped bowl on the lathe. More pictures should be available on our web site.

Charity: Bruce Long explained that the money raised at the Top-A-Thon in January would be used to send one child from the hospital to their Summer Camp.

CAMP CHATTERBOX

Camp Chatterbox is an intensive overnight therapy camp for children, ages 5 - 16, whose disabilities prevent them from being able to speak but who use voice synthesized computer technology in order to communicate. Camp Chatterbox is the first and only communication technology training camp in the nation for both children with these special needs and their families.

The program has been recognized at both the state and national level for "Program Excellence".

Camp Chatterbox has three program: one for children on the East Coast, one for the Midwest and a new Camp Chatterbox has three programs: one for children on the International camp for children in other countries.

March Meeting: At the March meeting we are having a SHOW and TELL, so bring your best and worst. Tell us about it, what you did and didn't do. To make it more interesting, each member who presents items will receive a raffle ticket free.

We will then bring out the lathes and start a Turn-A-Thon. For the new members and beginners, this is where you can get some hands on experience under the tutelage of some of our more experienced turners. Do you have a particular area you need to work on? I'm sure that someone there will be glad to show you what you need to know. This is one of the very top reasons the NJWoodturners was formed. Come and pick up a lot of knowledge.
